

Change My Password

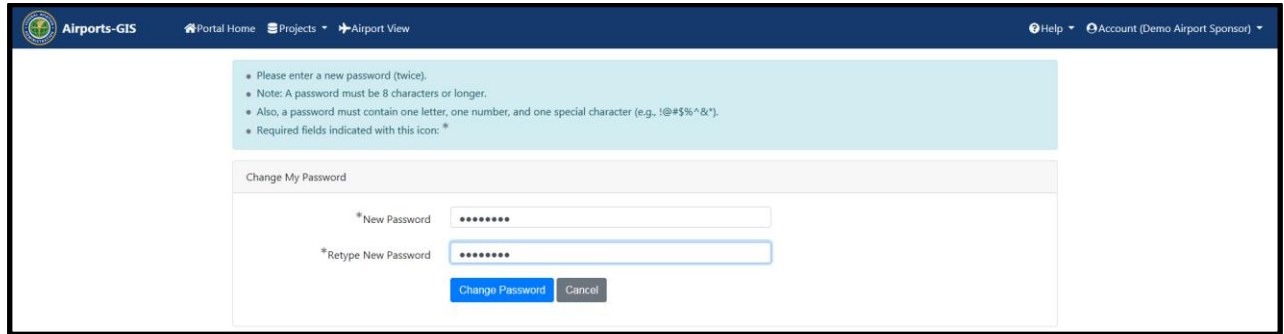

Select the “Change My Password” link from the AGIS Dashboard “My Account”

My Account (Demo Airport Sponsor)

 [Update My Account Information](#)

 [Change My Password](#)

Enter and confirm your new password. Your New password must follow the password rules specified.

The screenshot shows a web application interface for "Airports-GIS". The top navigation bar includes "Portal Home", "Projects", "Airport View", "Help", and "Account (Demo Airport Sponsor)". A light blue informational box contains the following instructions:

- Please enter a new password (twice).
- Note: A password must be 8 characters or longer.
- Also, a password must contain one letter, one number, and one special character (e.g., !@#% ^&*).
- Required fields indicated with this icon: *

The "Change My Password" form contains two required text input fields, both containing masked characters (dots). The first field is labeled "* New Password" and the second is labeled "* Retype New Password". Below the fields are two buttons: "Change Password" (highlighted in blue) and "Cancel".

Click on Change Password. If the password you entered meets the criteria, your password is changed and the dashboard is displayed.
